SPECIAL CONTRACT REQUIREMENTS

The following scope of work represents the EDI requirements for an automated ordering system that is required in addition to TACOM's standard EDI requirements, detailed elsewhere in the solicitation.

Scope of Work

EDI Replenishment

This contract will be using the EDI Replenishment (EDI Replen) process, either via Electronic Data Interchange (EDI) or WEB Electronic Commerce (EC). The procedures for utilizing either option are described below.

EDI Replenishment (EDI Replen)

The Contractor has the option to receive these actions via use Electronic Data Interchange (EDI), or WEB EC. In employing this process, the contractor will need to incorporate predetermined communication filters to allow electronic transmission using ANSI X.12 standards, or employ a Web browser in order to pick up contractual documents at www.tank-edi.com. The ANSI X.12 Standards include but are not limited to, transaction sets for purchase orders, delivery orders, invoices, and other contractual business related information between the government and the contractor. These transaction sets are also available in WEB EC as text-based documents.

Either EDI, via the ANSI X.12 standards through a DOD Certified Value Added Network (VAN) (Option 1 below), or WEB EC (Option 2 below) shall be used. Direct coordination between the Contractor and the Government will be required prior to the use of EDI. To allow the EDI process to happen, both entities must sign a Trading Partner Agreement. The Trading Partner Agreement is located in the Implementation Guide, found on the Internet at www.tank-edi.com.

Deliveries made on EDI Replen Orders will be based on a mutually agreed upon delivery time for the initial delivery for each order. The delivery time(s) are located in Section F of this solicitation (or as specified elsewhere). Delivery orders issued under this category will have a delivery date (or dates if incremental shipments are desired) stated within the delivery order. The initial delivery date shown on each delivery order will not be earlier than the mutually agreed upon initial delivery time.

OPTION 1 - ELECTRONIC DATA INTERCHANGE (EDI)

In employing this process, the Contractor will need to incorporate predetermined communication filters to allow electronic transmission using ANSI X.12 standards. The ANSI X12 Standards include, but are not limited to, Transaction Sets for purchase orders, delivery orders, invoices, and other contractual business-related information between the Government and the Contractor. The Government anticipates using, at a minimum, the following ANSI X.12 Transaction Data Sets. The Transaction Set number and its function are listed below.

<u>Function</u>	<u>Transaction Set</u>
Invoice	810
Delivery/Purchase Order	850
Purchase Order Agreement	855
Functional Acknowledgement	997

The originator pays transmission charges for the VAN, whether it is the Government or the Contractor. The Government currently uses AT & T Easylink or Harbinger Corporation. Therefore, the contractor must be able to interconnect with Easylink or Harbinger Corporation. A list of VANs can be found on the San Antonio ECRC page: www.saecrc.org/van.

The Contractor and the Government will run a test within 60 days from contract award to ensure both parties are able to transmit and receive the Transaction Set data. Once testing is successfully completed, the contractor will be certified capable of conducting EDI. The Contractor must then be capable of receiving and processing EDI orders within 45 days after contract award. The Government may waive testing if it deems it to be unnecessary.

OPTION 2 - WEB ELECTRONIC COMMERCE (EC)

This contract may also be conducted using an Internet-based application called WEB EC. In employing this process, the contractor must have, as a minimum, an Internet Service Provider (ISP), a 32 Bit Platform like Windows 95, Netscape 3.01 or Explorer 3.02, and a 28,800 Baud Modem in order to receive and access contractual documents at www.tank-edi.com. For optimal usage, it is recommended that the contractor have an Internet Service Provider, Windows 95, Netscape 3.01, or Explorer 3.02 and a 56,000+ Baud Modem in order to receive and access contractual documents at www.tank-edi.com.

NOTE! AOL users must be using v4.0 or higher to use WEB EC.

The Transaction Sets listed below will be available to the contractor in a Text Based Format, which the contractor may down

The Contractor and the Government will run a test within 60 days from contract award to ensure both parties are able to transmit and receive the Transaction Set data. Once testing is successfully completed, the contractor will be certified capable of conducting WEB EC. The Contractor must then be capable of receiving and processing WEB EC orders within 45 days after contract award. The Government may waive testing if it deems it to be unnecessary.

As part of the WEB EC application, the contractor will also receive on-line a Bar Code that can be utilized for shipment against the applicable Delivery Order. The contractor may submit its invoice to DFAS via it's Web Invoicing System (WinS) as part of its on-line response. Additionally, in certain circumstances, an on-line electronic DD Form 250 may be available as well.

BAR-CODE LABELING OF INDIVIDUAL SHIPMENTS

The contractor shall apply bar-coded labels to every shipment made under this contract. A bar-code label is required for each exterior container or palletized load that contains a single item, each unit pack and intermediate container used in addition to the exterior container and/or each item being shipped loose or unpacked/unpacked, as allowed by the contract or order. Bar-codings on all containers shall be in accordance with MIL STD 129N dated 15 May 97 and ANSI AIM-BC1-1995, dated 16 Aug 95. MIL STD 129N and ANSI AIM BC1-1995 specify bar code density, dimensions, technical structure, symbol separation and placement. MIL HDBK-129 has information and illustrations you may refer to for guidance on bar-code markings. If you use multiple bar-code labels rather than a single large label to comply with the requirements of this contract, you must apply them adjacent to each other, either side by side or stacked vertically. BAR CODES CAN BE SENT TO YOU VIA WEB EC.

This is necessary whether the Contractor or a subcontractor will ultimately provide the product or service in question. If, after award, the Contracting Officer discovers that an applicable qualification requirement was not in fact met at the time of award, the Contracting Officer may either terminate this contract for default or allow performance to continue if adequate consideration is offered and the action is determined to be otherwise in the Government's best interests.

(e) If an offeror, manufacturer, source product or service has met the qualification requirement but is not yet on a qualified products list, qualified manufacturers list, or qualified bidders list, the offeror must submit evidence of qualification prior to award of this contract. Unless determined to be in the Government's interest, award of this contract shall not be delayed to permit an offeror to submit evidence of qualification.

(f) Any change in location or ownership of the plant where a previously qualified product or service was manufactured or performed requires reevaluation of the qualification. Name of Offeror or Contractor:

- (11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.
- (c) Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.
- (d) Product samples. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

- (f) Late submissions, modifications, revisions, and withdrawals of offers.
- (1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.
- (2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and-

- (3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.
- (4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.
- (5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.
- (g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.
- (h) Multiple awards. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.
